

East Norwalk Parks — a Beautiful Retreat

The Third Taxing District maintains these beloved community parks for your everyday enjoyment!

Constitution Park

Constitution Park located on Fort Point Street at Liberty Square. Out of the District's parks, this is the largest of them all. A park to leisurely stroll through or just relax on a park bench and enjoy the view.

Roger Ludlow Triangle

Roger Ludlow Triangle located on Gregory Boulevard across from the East Norwalk Historical Cemetery - the home of Third Taxing District's annual Christmas Tree Lighting in December.

Edgewater Park

Edgewater Park overlooks Long Island Sound that is frequented primarily by residents and their four-legged friends. Others do come to this park to get fresh air and enjoy some quiet time overlooking the harbor.

Ron Scofield, Assistant General Manager of Third Taxing District, assumed the responsibility of overseeing the maintenance of the parks in 2000. He works with a professional landscaper to maintain their parks - Constitution Park, Edgewater Park and Ludlow Triangle - as well as the East Norwalk Historical Cemetery, Shea-Magrath Memorial, Hanford Switch and various traffic islands.

Spring is for... tree planting!

The Third Taxing District is excited to announce the fifth annual free tree promotion. Through a grant to the Norwalk Tree Alliance, TTD will provide trees at no cost to East Norwalk homeowners - for the tree and for planting it. Our goal is to improve the tree canopy in East Norwalk's neighborhoods and enhance the quality of our environment.

Because the Free Tree program has been so popular, a tree lottery has been utilized for the last four years.

If you're interested in a free tree to be planted in your front yard, please email TTD at ctneney@ttd.gov. Please include your name, home address and telephone number. If you entered the lottery in previous years, you'll need to enter again this year in order to qualify. There are a limited number of trees available, qualified homeowners will be selected at a drawing at the end of April 2022.

- The Norwalk Tree Alliance will contact you in early May if you are a winner. You will be offered from a selection of specimen trees, such as Maple, Oak and Linden, or maybe a flowering tree such as a Dogwood, Red Bud or River Birch.

TTD's FEATURED BUSINESS PICK

BJ Ryan's East

A Delicious Tradition Continues!

East Norwalk has some new culinary excitement in town. With the closing of Partner's Café, comes the opening of BJ Ryan's East!

Fifteen years ago BJ Ryan's "Pub" opened on Main Street, Norwalk, serving fun, eclectic favorites, and attracting many loyal customers. "Loving the neighborhood that we now felt was home," said BJ Lawless, "we opened up BJ Ryan's East" B-AN-C House just around the corner where we serve fine BBQ and seafood delicacies including several types of cold-water crabs and blue crab when in season."

BJ Ryan's newest concept - BJ Ryan's EAST - opened in February of 2022 taking over the location of the longtime restaurant Partner's Café & Pizzeria in East Norwalk. This newest restaurant continues BJ Ryan's dedication to providing quality food and beverages in a cozy and friendly atmosphere.

"I bartended here 18 years ago, have known Partner's founders Tommy and Debbie Spinola my entire life, and my wife Marissa worked here for 17 years," says BJ. **(continued)**

PARTNERS BJ LAWLESS (L) & KEITH TORPEY (R) HAVE BEEN WORKING TOGETHER FOR OVER 12 YEARS

Spring is for... tree planting! *continued from front*

- A professional landscape team will plant the selected tree at a front yard location approved by you the homeowner.

Since we began the Free Tree Program, Norwalk Tree Alliance has planted over 70 trees throughout East Norwalk. These trees help to restore the tree canopy of Norwalk depleted due to storm damage, disease and removal.

Why plant a tree?

Trees provide many personal, neighborhood and town benefits throughout the year. Besides adding value and beauty to your property, trees provide a habitat for songbirds and other wildlife. They absorb pollution and provide cooling shade. By holding soil with their roots, trees reduce erosion and storm-water runoff.

Allan Broadbent, President
Norwalk Tree Alliance

Join the East Norwalk Neighborhood Association Third Annual
