

TTD's Summer Concert Recap

While the summer of '25 was certainly a warm one, our summer concerts made it hotter! We featured three new bands this summer at Calf Pasture Beach. Thanks to all of the performers – and you – for a great musical summer.

Sincerely, Ron Scofield, Assistant General Manager

Notice of Annual Meeting of the Independent Consumer Advocate

The Independent Consumer Advocate (the "Advocate") for the retail electric consumers of the municipal electric utility ("MEU") members of Connecticut Municipal Electric Energy Cooperative ("CMEEC") will be hosting the annual Consumer Meeting at 2:00 p.m. on Wednesday, October 8, 2025 at CMEEC's office located at 30 Stott Avenue, Norwich, CT. At this meeting the Advocate will summarize his activities over the last year and invite comments and questions from the retail electric consumers of the MEUs.

Attendance can be in person or via Zoom. Due to room capacity and security issues, please call Lauren Gaudet at (860) 383-1048 or email lgaudet@cmeec.org if you will attend in person or require Zoom instructions.

TTD's COMMUNITY BUSINESS UPDATES

Rick's MAIN ROOFING LTD

They've Gotcha Covered!

Richard Tavella is a second-generation small business owner. His grandparents ran a shoe store in Norwalk, and his father founded The Main Roofing Company in 1948.

Rick joined his father's company in 1975, working as a laborer on residential and commercial properties learning the trade from the ground up.

In 2003, Rick established Rick's Main Roofing, Ltd., providing the same quality workmanship and work ethic that Rick learned from his father. All of Rick's service technicians and roof installers are trained and experienced. Over the years, Rick's Main Roofing has grown into one of Fairfield County's most respected roofing companies. The company is GAF Master Elite certified on all shingle roof to offer a manufacturers warranty and Master Select certified on all Flat Roofs to offer a manufacturers warranty. Rick's Main Roofing is also a member of the Cedar Shake & Shingle Bureau to offer a manufacturers warranty.

"As a homeowner, your property is likely your biggest investment," says Rick. "It protects your family and belongings and reflects your style." Following in his father's footsteps, Rick has built his company upon the philosophy that the customer is always the top priority and that roofing is more than just installing shingles; it's about paying attention to every detail.

Tree Lottery Update

We are pleased to announce that eight residences in East Norwalk will be the recipients and lucky winners in this year's tree lottery!

- Eight homes will receive a free tree (such as Maple, Oak, Dogwood, Red Bud or River Birch) provided by the Norwalk Tree Alliance and a donation from TTD.
- A professional landscape team will plant the selected trees at a front yard location approved by the homeowner.

Since we began the Free Tree Program, Norwalk Tree Alliance has planted over 100 trees throughout East Norwalk. These trees help to restore the tree canopy of Norwalk depleted due to storm damage, disease and removal.

Jeff Scherr, President
Norwalk Tree Alliance

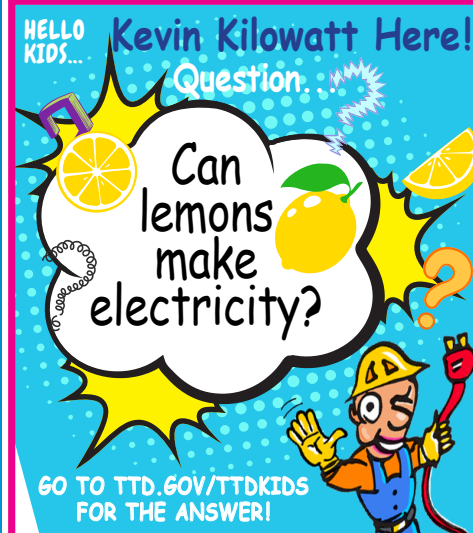

HELLO KIDS... Kevin Kilowatt Here!

Question...

Can lemons make electricity?

GO TO TTD.GOV/TTDKIDS FOR THE ANSWER!

Reduction In Power Cost Adjustment

On August 25th The Third Taxing District Commission approved a reduction in the Power Cost Adjustment from \$0.0301/kWh to \$0.0276/kWh effective September 1, 2025. Residential customers who use 700 kWh can expect to see a reduction in their electric bill of approximately 1.3% or \$1.75 a month.

Roger Ludlow Park Wrap Up

As the enhancements to Roger Ludlow "Triangle" Park near completion, we are proud to see our vision for an improved community space taking shape. The addition of thoughtfully designed pathways, updated landscaping, natural boulders, new trees, park benches and plantings create an inviting environment. We invite you to experience the revitalized park and enjoy its natural beauty.

FALL 2025 IMPORTANT DATES

SEPTEMBER 22, 2025 – COMMISSION MEETING

OCTOBER 13, 2025 – COLUMBUS DAY – OFFICE CLOSED

OCTOBER 27, 2025 – COMMISSION MEETING

NOVEMBER 11, 2025 – VETERANS DAY – OFFICE CLOSED

NOVEMBER 24, 2025 – COMMISSION MEETING

Back-to-School Electrical Safety for Children

Dear parents ~ Start by showing children how to treat electrical outlets with care. All outlets in the home should have safety covers to prevent little fingers or toys from being inserted. Explain that outlets are not toys, and only adults should plug things in or out.

Many kids use nightlights, tablets, or small lamps in their rooms. Make sure cords are in good condition – no frays or exposed wires – and placed where children won't trip over them. Talk to your child about not pulling on cords or yanking them from the wall, as this can damage the cord or outlet.

Water and electricity never mix, so remind your child to keep drinks and wet hands away from anything plugged in. Devices like tablets or laptops should only be used with clean, dry hands and far from water sources.

If your child uses a backpack with a built-in charger or power bank, teach them to charge it safely – never under a pillow or blanket, and never overnight. These devices can overheat if not used properly.

Finally, set a good example. Kids learn by watching, so practicing safe habits yourself will reinforce the importance of being careful around electricity.

By taking a few minutes to talk about these safety tips, you can help your young child develop good habits that will keep them safe throughout the school year – and beyond.

REMEMBER... safety starts at home, and a little knowledge goes a long way!

To report a power outage during non-business hours, 203-866-9271 and select Option 1.
